2024 PRODUCT SHOWCASE

RETHINK PLASTIC

When it comes to rethinking plastic, we obsess over the tiny details most people don't even notice. Even if we can't design around plastic completely, we strive to reduce its use without sacrificing durability and function. We look hard at every possible change that can make a difference – from product design, to material selection, to environmental plastic collection. By taking a balanced approach to when and how we use plastic, we can reduce our reliance on plastic and make sustainable choices more accessible to everyone.

REDESIGN

We aim to reduce our plastic usage by rethinking how each product is designed. Our intentional design process results in unique and innovative solutions that rely less on plastic.

REUSE

When plastic is absolutely necessary, we do our best to use Global Recycled Standard Certified recycled plastics.

RECOVER

Full Circle is proud to be Plastic Net Zero. What this means is that for every ounce of plastic we use, an ounce of plastic is collected from the environment - and recycled into social plastics - through our partnership with Plastic Bank®

We have offset

455,041 lbs = 10,320,150 bottles

through our partnership with Plastic Bank since 2021

FULL CIRCLE

By creating sustainable home care products that are beautifully designed, functionally innovative, and responsibly produced, Full Circle guides families through each step of their sustainability journey - inspiring and educating the next generation to live a more eco-friendly life and preserve the world we all share.

FAMILY ORIENTED

Families take many forms, but they all share one goal: a better future for their children.

We believe this starts at home. Through education and product innovation, we promote healthy, vibrant environments for all.

EU

be good™ Dish Brush

It's easy to be good with this little helper leading the charge. Made with a sustainable bamboo handle and recycled plastic head, it's one awesome way to be a little better to the planet.

EU

the ring™ Veggie Brush

Get your organic produce squeaky clean with this little earth-friendly wonder that works on everything from the firmest peppers to the most delicate peaches.

EU

grunge buster™ Grout + Tile Brush

Tackle your tub with a brush that combines tough bristles for grout on the inside and softer bristles for tile on the outside. The curved handle lets you get down and dirty with less effort.

SUSTAINABLY NATIVE

We believe everyday products (more than any others) should be sustainable, sustainably sourced and packaged, and should inspire more thoughtful everyday choices.

EU

micro manager™ Detail Brush

The two-in-one tool features a flexible pointed nib for removing hidden gunk and a scrub brush that keeps your kitchen and bathroom sparkling.

EU

stash™ Modular Ceramic Sink Caddy

Meet the game-changing, space-saving storage system for your sink and countertops. A streamlined, low profile tray and caddy design make this modular ceramic sink system your go-to for functional, flexible style.

DESIGN DRIVEN

We obsessively believe that aesthetics and efficacy should never be sacrificed - our brands make products that are thoughtfully designed, sustainable, affordable and solve everyday problems.

EU

bubble up™ Dish Brush & Ceramic Dish

Small but mighty, this sink-side workhorse creates lush suds that make dish time easy (and maybe even a little fun). The ceramic base springs into action, then stores neatly on your counter to keep the bamboo brush squeaky clean.

MATERIAL INNOVATION

Every material in our products is carefully selected for its durability, giving you more time before each one ends its life cycle. We choose options that take less energy to produce and cut back on greenhouse gases and harmful chemicals.

CERTIFIED RECYCLED PLASTICS

The carbon footprint of using recycled plastics is lower than producing virgin plastics, and we are proud to announce that all of our recycled plastics are GRS (Global Recycled Standard) certified post-consumer recycled plastics.

WALNUT SHELLS

Walnut shells work as a natural abrasive to scrub surfaces without scratching.

EU

in a nutshell™ Walnut Scrubber Sponge

No more two-faced double duty sponge that adds unnecessary waste. This plant-based and walnut-shell beauty takes on tough jobs without being hard on the planet.

EU

neat nut™ Walnut Scour Pads

Ever notice that walnuts look like little brains? Pretty cool. What's more impressive is that their shells work as a natural abrasive to scrub surfaces without scratching. Now that's smart.

RECYCLED FISHING NETS

We forage and reclaim discarded fishing gear and turn it into sustainable materials, a process with a carbon footprint 75% lower than manufacturing with virgin plastic.

CELLULOSE

100% plant-based so it breaks down naturally, cellulose is an eco-friendly alternative to polyurethane foam sponges that many households still use today.

PAPER

By combining kraft paper with a fortifying food safe resin we've developed a material that looks like wood and performs like plastic, and it's antibacterial.

COCONUT

Ground coconut husks made directly from renewable plant materials make up our toughest scrubber yet.

beachy clean™ Heavy-Duty Coconut Scour Pads

Our heaviest duty scouring pad, made from recycled plastic and coconut husk. It gets dirty tackling the tough jobs but still comes out smelling like roses coconuts.

CLEAN OCEAN

Ghost nets are abandoned commercial fishing nets. When they sink down to the ocean floor, they trap and kill fish, dolphins, seals, sea turtles, and more.

We collect ghost nets and turn them into cleaning tools. The Clean Ocean line is made of 100% recycled fishing nets.

GADGETS

Our sustainable line of stainless steel gadgets are made with uniquely engineered handles, utilizing a bonded kraft paper that has the best qualities of wood while being naturally antibacterial, dishwasher safe, and comfortable to grip.

EU

peel out™ Vegetable Peeler

This stainless steel peeler can handle the toughest, trickiest produce skins with ease. The arched design prevents peel buildup, so you can stay in the zone.

MADE FROM PAPER
At least 75% less plastic

EU

grate expectations™ Coarse Grater

This hand grater features a BPA-free, certified recycled plastic cover that doubles as a catcher, so you can keep your grated cheese in one place.

EU

smooth operator™ Can Opener

This smooth edge can opener not only cuts through lids smoothly, it locks onto the lid for safe, easy removal. The integrated bottle opener lets you complete your meal with an ice-cold beer.

EU

slice™ Pizza Wheel

This hover-style pizza cutter gives you more leverage, power and control, so you can cut your pizza once and for all. The sharp blade and the large wheel lets you cut through even the thickest of crusts and all sorts of toppings

EU

crushed it™ Garlic Press

This garlic press features a removable handle that scrapes crushed garlic and removes leftovers. This simple yet sophisticated design is easy to clean and easy to use—no more sticky garlic fingers!

EU

simply the zest™ Zester

This zester is carefully designed for delicate citrus zest without the bitter pith, for show-stopping garnishes and incredible aroma and flavor.

EU

the baller™ Ice Cream Scoop

The thin spade-like edge carves through even the hardest of ice creams, without the hard work.

SUPER SUDS

Who says washing dishes has to be your archnemesis? Small but mighty, these sink sidekicks create lush suds without breaking a sweat.

splash patrol™ Natural Latex Cleaning Gloves

Spiff your space without your hands getting dirty. Our sleek, slip-resistant gloves combat muck while keeping you dry and out of harsh chemicals' reach. From kitchens and baths to mudrooms and more — this sturdy pair goes the distance in style.

EU

bubble up™ Soap Dispenser & Sponge Holder

This next-to-sink soap pump and sponge holder provides a streamlined way to keep dishes clean and sponges feeling fresh. The deep vessel and spring-loaded platform replaces messy bottles and requires less soap to get the job done.

EU

lucky scrubber™ Antimicrobial Copper Scrubbers

Cleaning up is a breeze with this copper scrubbing wonder. The perfect balance between tough and soft, it quickly removes grime from stainless steel cookware, stoves, grill tops, and other surfaces without leaving scratches.

GIVE IT A DRY

Quick drying time is a dish-doer's best friend. Start simple with our recycled and reversible Supermatural, pair it with a rack with The Shape-Shifter, or level up with Dish Jockey to handle sinkfuls and strangely-shaped dishes. You wash, we'll dry.

Dish mat also
available separately

EU

the shape-shifter™ 2-In-1 Dish Rack with Recycled Microfiber Mat

We've merged together the dish mat with the function of a dish rack to help you dry dishes without the dreaded balancing act. We took it one step further by infusing your new kitchen BFF with charcoal foam to prevent bacteria build up and nasty odor.

dish jockey™ Dish Rack

Other dish racks leave you high and... well, not so dry. The Dish Jockey is spinning something new, with less bulk and better drying for dishes that you actually hand wash. Pots, pans, cutting boards, and other kitchen odds and ends will find a temporary home here. No haphazard stacking involved. Leave Jenga for game night.

RENEW™ COLLECTION

Microfiber isn't known to be the most eco-friendly product on the market, but thanks to technology, we've created a version that's as functional as it is sustainable. Using recycled PET (the material used to make most water bottles), the Renew™ Collection brings you the magic of microfiber without making a mess of planet earth. Enjoy easy, magical, chemical-free cleaning.

HOLD ON!

A place for everything and everything in its place. Keeping your tools organized will do wonders when cleaning time comes around.

EU

**broom
service™**
Broom

Broom Service is served up on a recycled platter, right to your freshly swept doorstep. Looking for white glove service? The dual angled bristles reach farther to get the job done faster so you have more time to relax.

EU

get a grip™
Mop & Broom Organizer

Get a good grip on your cleaning tools. Foam pegs and retractable hooks provide easy storage options. What are you waiting for? Let our mop and broom organizer sweep you (and your tools) off your feet.

EU

tag team™
Easy-Empty Sweep Set

This compact sweep set has a loop which allows it to hang while also being completely self-standing. With one touch, the dustpan pivots to empty easily into the trash.

BATHROOM COLLECTION

Fashion meets function with elegant ceramic designs and grunge-busting cleaning power.

Recycled Aluminum

Full Circle has partnered with a supplier who upcycles aluminum scraps from manufacturing into new materials, working towards a closed-loop manufacturing process.

Dry Earth™

Made from natural stone, we put this super absorbent substance in the form of a disk at the base of our toilet brush, plunger and toothbrush holder.

keep it clean™ Toothbrush Holder

While cuddling is awesome, cuddling toothbrushes is another story. This holder has a naturally absorbent disk at its base that eliminates stagnant water, mildew and bacteria. Keeping toothbrushes close - but not too close.

EU

royal plunge™ Plunger

Ditch that plunger that was there when you moved in and give your bathroom a much needed upgrade. Added bonus: we put a Dry Earth™ disk at the bottom that prevents odor and mildew.

EU

scrub queen™ Toilet Brush

Say hello to elegant toilet bowl brushes. This sleek brush tucks neatly into its holder and rests on a Dry Earth™ disk that cuts down on odor and mildew.

EU

foamance™ Foaming Soap Dispenser

Our best-selling soap dispenser got a makeover! The updated pump head effortlessly infuses air and water into liquid - making your soap last longer and foam up with ease. With the see-through glass container, you can tell at a glance when your soap supply is running low. The silicone ring on the bottom prevents crash landings and keeps the container grounded.

EU

soap opera™ Soap Dispenser

This beauty proves you don't have to sacrifice aesthetics for functionality and sustainability. The updated bamboo grip and pump head shape make it easy to dispense soap wherever you need it, and the clear glass container makes checking for refills a cinch.

LAUNDRY COLLECTION

Our Loads of Fun laundry collection gives you the tools you need to take better care of your clothes, ensuring they last longer and wash more efficiently, allowing you to consume and purchase less. A win for your closet is a win for the planet.

loads of fun™ Anti-Static & Lint Removing Mitt

Want a hand with static or lint removal? You've got one with this mitt. With two sides of innovative fabric, it can tackle static and the pet hair, dust, or lint that's hitching a ride on your outfit—or making a new home on your upholstery.

fuzz off™ 2-in-1 Dual Lint Remover

Soft rubber bristles tackle pet hair and larger lint, while a micro-bristle fabric removes finer lint particles (handy arrows show you which direction to swipe so you won't wind up covered in yesterday's fuzzies!)

loads of fun™ Anti-Static Dryer Balls

Don't be sheepish about getting rid of static. Our vegan anti-static dryer balls are a quiet and eco-friendly alternative to wool dryer balls and dryer sheets. Your clothes will spend less time in the dryer, and come out free from wrinkles and static.

EU

loads of fun™ Steaming & Ironing Blanket

This blanket turns any surface into an ironing board—without all of the hassle. It can also be hung to provide a surface for steaming. After your clothes are fresh and crisp, simply use ties to secure and fold away neatly.

EU

loads of fun™ Hamper

A clean solution for dirty laundry, this hamper makes sorting, storing, and schlepping easier. Collapse it to save space or connect it to a second hamper for intuitive pre-sorting. Your laundry day self will thank you and your longer-lasting clothes will, too. Sustainability, sorted.

Combine the hamper and wash bags for the ultimate color and delicates sorting system.

EU

loads of fun™ Wash Bags

Commonly referred to as "Delicates Bags," these laundry bags aren't just for small and delicate items—but they are delicate on our planet. Research shows that wash bags can prevent wear and tear on clothing and reduce microfiber shedding.

COMPOSTING

Composting is an easy way to reduce greenhouse gases, while making gardens greener and cutting down on landfill waste. Even if you're yardfree, we have the perfect, stink-free solutions to get you started.

EU

fresh air™ Odor-Free Kitchen Compost Collector

The new matte grey Fresh Air compost collector lets oxygen move through your organic kitchen waste, slowing down decomposition. The result? A stink-free solution even the neat freak in you can get behind.

scrap sack™ Compostable Food Waste Bags

Composting is a commitment. The solution: these 1.5 gallon single-use compostable bags. They're cute and leakproof (shout out to the vegetable-based liner!) Throw in your food scraps and toss the whole bag!

EU

'post modern™ Stainless Steel Compost Collector

The 'Post Modern is more than just a good-looking compost collector. While it adorns your countertop, its unique air-flow pattern will prevent any funky smells from your food scraps. Odors don't stand a chance against easy-to-clean stainless steel and a strong-acting activated carbon filter. Do good. Without the bad smells.

For Good by Full Circle is a family of sustainable, compostable household staples. Trash bags, zipper bags, wraps, papers and other everyday items that turn into earth instead of landfill-cluttering microplastics. **And they look and perform just like the conventional alternatives.**

**Rethink
your trash,
for good.**

**Break up with
plastic bags,
for good.**

LAUNDRY

Soma, our sister brand, creates hydration, filtration, coffee and tea products that are not only beautiful and effective, but also sustainably designed.

Soma helps bringing water to those in need through our partners at charity:water.
