INDEX	99

„Ladna” Glass Factory was established in 1986 by Janusz Fistek. It is a dynamically developing company. The factory has a long-lasting family tradition, which goes back to 1957.

It was the time when first private glass factories became a fact.

The speciality of our factory are decorative glass vases, high quality household glassware, artistic glassware and grave lights. We offer over 600 glass patterns. You can order an individual pattern, as well.

LADNA GLASS FACTORY

The management, art.-workers and glassblowers are highly experienced. The experience and passion are the base of our company.

Except for traditional methods we do up-to-date service as: decorating, painting, sandblasting, creating decorative arrangements on your demand.

We offer numerous extras to glass as: colored decorative granulates, special packing, metalwork, wooden and plastic products.

Our products are well-known not only in Poland, but in Europe, America and Asia, too.
